Self Learning Materials for the children - this is what is needed at this moment, when the teachers aren't around and regular classes aren't happening. Shiksha Mitra has developed some worksheets which will really help children to think through and take them towards self learning.

Some samples are given below:

MATH GAMES: MAKING MATH MORE FUN

1) Use a mirror to read and solve these problems.

$$\begin{array}{r} 27809 \\ 88238 \\ 82030 \\ + 27809 \\ \hline \end{array}$$

$$= 27809 + 88238 + 82030 + 27809$$

$$\begin{array}{r} 78001 \\ - 82222 \\ \hline \end{array}$$

$$= 18001 - 82222$$

$$\begin{array}{r} 2030 \\ \times 27 \\ \hline \end{array}$$

$$\begin{array}{r} 5820 \\ \times 33 \\ \hline \end{array}$$

$$\begin{array}{r} 152000 \\ \times 8000 \\ \hline \end{array}$$

$$\begin{array}{r} 12000 \\ \times 8880 \\ \hline \end{array}$$

2) Solve the problems.

Get Ready for new fashions this holiday season . . .

This is Prasanta Sarkar. He loves making things and is dedicated to fashion. He wants to be a fashion designer and his main fashion standpooint is "be true to yourself." He doesn't buy expensive fashions. In fact, he often wears used clothing and a few simple accessories, like sunglasses, a hand-sewn shoulder bag, flip-flop sandals, and a checkered scarf. Prasanta says he has already started to think about how the Puja festivities will be different this year. He knows everyone will need to wear a mask in public so he decided to stitch his own masks and he is decorating the masks to match with the different outfits he will wear each day. The photo on the left shows a mask Prasanta painted inspired by the pata scroll artisans of West Bengal, called Wedding of the Fish. How will you make the masks you are required to wear outside more fashionable? Decorate the mask Prasanta made for you above!

MOBILE PHONES

Our phones are very important to us for communication and contact with the outside world. Draw or name all the ways you use a phone. What apps do you use? What music do you like? Who do you contact? What photos are in it?

Do you have your own phone or do you share it?

I share with my brother.

- 5:45 2/11 99%
- I watch cooking shows on youtube.
- I use the alarm on the clock.
- I call my parents and text with friends on whatapp.
- I take selfies with the camera.
- I learn new dance steps on Youtube.

With all the things it does -- is it really just a "phone"? Can you think of another cool name for it?
