

## Change - a way of life

By [Shailendra Gupta](#) | Feb 26, 2014

Change is permanent and as Johann Wolfgang von Goethe said, *"We must always change, renew, rejuvenate ourselves; otherwise we harden. Life belongs to the living, and he who lives must be prepared for change."*

We are preparing students for the future i.e. students of today will face the world of work in 2030. One of the challenges is to help students anticipate change at every level. This worksheet is designed to help students anticipate change so that they are thinking individuals and are ready for the changes they are going to face.
