

Resource1

Match the items with the height at which they are found

(The information given below can also be used for making flash cards. The object e.g. 'rubber' can be a flash card while the height at which it is found i.e. '300m to 600m app. in the tropics' can be another flash card.)

1. Rubber: 300-600m app. in the tropics	9. Apple: 1000-2000m app.	17. Conks: Sea level
2. Tea: 700-1600m in the tropics.	10. Iron: 500-800m app. in India	18. Fishes: 0-300m
3. Coffee: 600-1600m in the tropics.	11. Pencil : 500m and above	19. Pumice stone: Volcanic mountain
4. Brick: below 3000m	12. Slate: 1000m and above	20. Broom stick: 0-150m
5. A bottle of silted water: 0-300m	13. Ragi: 300-600m	21. Sea-shells: Sea level
6. Jute-bag: 0 -300m	14. Cashew-nuts: 150-500m in India	22. Dates: mainly in regions with less than 25 cm of rainfall
7. Coal: 400-800m in India	15. Petroleum production: below sea-level	23. Deodar oil: 2500-3500m
